

2000L

This diagram illustrates the assembly of a vehicle chassis, showing the relationship between various structural components. The main body of the vehicle is shown in profile, with a large fuel tank and a rear wheel visible. The chassis components are shown in an exploded view, indicating their relative positions and how they fit together. Key components and their part numbers are labeled as follows:

- 32740**: A small fastener or pin at the top left corner.
- 30065**: A small fastener or pin below 32740.
- 47087**: A circular component, possibly a bush or washer, below 30065.
- 37352**: A small fastener or pin on the left side of the chassis.
- 45486:G** and **45487:D**: A long, angled structural member on the left side.
- 45489**: A long, horizontal structural member at the top.
- 30019**: A small fastener or pin at the top center.
- 44504:G** and **44503:D**: A vertical structural member on the right side.
- 35988**: A small fastener or pin on the right side.
- 42536**: A vertical structural member on the far right.
- 30038** and **30020**: Small fasteners or pins on the far right.
- 45488**: A small fastener or pin on the far right.
- 30061**: A small fastener or pin at the bottom center.
- 39461**: A small fastener or pin at the bottom right.
